

GENDER-NEUTRAL RESTROOMS

All students deserve safe access to restrooms. Gender-variant students can be faced with distress, anxiety, harassment, or even violence in restrooms exclusive to men or women.

Single-stall restrooms allow students who are gender non-conforming, transgender, disabled, who are parents of small children, or who have an increased desire for privacy to use the restroom in peace and safety.

LGBTQ+ Services, SDES and the Office of Diversity Initiatives has identified 12 family/gender-neutral restrooms across campus.
